

BSB41419 CERTIFICATE IV IN WORK HEALTH & SAFETY

Compliance with work health and safety laws is mandatory, and many courses and individual units educate and train workers in how to comply with organisational and legislative rules.

This qualification extends that knowledge and understanding. It is aimed at more senior tradespeople or business managers who require an in-depth understanding of the way in which Health and Safety can become a key platform in any organisation's safety culture, and a point of difference between just doing enough and actually embracing the spirit of the law.

Program Outcomes

- ✓ Assist with providing advice about the legislative duties, rights and obligations of individuals and parties prescribed in work health and safety (WHS) legislation.
- ✓ Contribute to identifying work health and safety (WHS) hazards, assessing WHS risks, and developing, implementing and evaluating risk controls according to legislative and organisational requirements.
- ✓ Learn to communicate relevant information, identify and deliver related training and improve consultation and participation processes.
- ✓ Assist with the work health and safety (WHS) management of contractors
- ✓ Understand the processes of implementation and maintenance of a Work Health and Safety management system (WHSMS).
- ✓ Assist with actions and activities performed in response to work health and safety (WHS) incidents which includes accidents.
- ✓ Monitor a range of physical agents and conditions relevant to work health and safety (WHS).
- ✓ Map operational processes for efficiency and safety compliance.
