

CERTIFICATE III in LANDSCAPE CONSTRUCTION (AHC30916)

TME presents this nationally recognised qualification covering the skills and knowledge relating to the landscaping industry such as constructing paving, retaining walls, irrigation, plant selection and propagation, soil structure and garden bed preparation and planting.

The landscape construction industry strongly affirms that training and assessment leading to recognition of skills must be undertaken in a real or very closely simulated workplace environment and this qualification requires all units of competency to be delivered in this context.

Experienced teachers, who are experts in the field and currently working in the field, will guide you through the program, which involves practical projects & self-paced activities. This level of qualification is required for most entry level positions in the landscaping industry.

Program Outcomes – participants will learn to;

- ✓ Understand and apply enterprise work health and safety policies and procedures.
- ✓ Set out a site for construction works in accordance with site plans and specifications.
- ✓ install surface and subsurface drainage systems.
- ✓ Develop skills and knowledge required to install low and sprinkler volume irrigation systems
- ✓ construct concrete structures and features as a component of landscape projectworks.
- ✓ construct brick structures and features or block structures and features, or both as a component of a landscaping project.
- ✓ Transport, prepare and apply chemical mixes.

Program Snapshot

Duration

18-24 months

Delivery Option

Delivered in the workplace as a combination of off the job classroom time plus extensive workplace practice. In these times on-line classroom and some assessments are possible to meet workplace requirements, but course progression depends on trainer access to the workplace.

Assessment Methods

- Theory & knowledge assessments
- Case studies & practical exercises
- Workplace observations
- Workplace supervisors' reports

Pre-requisites

It is required that learners be employed in a situation that allows them to demonstrate application of skills required by the program. Learners will need access to the internet for on-line research and activities.

LLN will be assessed prior to course commencement.

Resources Provided

Learning resources will be provided including training manuals, powerpoint presentations, you-tube clips, webinars etc.

Costs

This course is offered to eligible individuals with Victorian and Federal Government funding.

CERTIFICATE III in LANDSCAPE CONSTRUCTION (AHC30916)

AHC30916 Certificate III in Landscape Construction requires completion of 15 units of competency. * Indicates core units.

- AHCWHS301** Contribute to work health and safety processes*
- AHCLSC301** Set out site for construction works*
- AHCDRG301** Install drainage systems*
- AHCIRG331** Install pressurised irrigation systems
- AHCIRG306** Troubleshoot irrigation systems
- AHCLSC302** Construct landscape features using concrete*
- AHCLSC303** Construct brick and block structures and features*
- AHCLSC305** Construct stone structures and features*
- AHCLSC306** Implement a paving project*
- AHCLSC307** Implement a retaining wall project*
- AHPCCM302** Provide information on plants and their culture*
- AHCCHM303** Prepare and apply chemicals
- AHCCHM304** Transport and store chemicals
- AHCPGD301** Implement a plant establishment program*
- AHCSOL303** Implement soil improvements for garden and turf areas*

This course has limited flexibility, allowing for only 3 elective units.

For more information about this program please contact the TME office on 1800 TME TME or enquiries@tme.edu.au

Induction: Trainees will be introduced to the course, delivery and assessment methods, and expectations and rights of trainees prior to course commencement.

All trainees are expected to comply with worksite WHS procedures and policies during practical activities. Safety procedures in the classroom will be explained at the commencement of the course.

RPL & Credit Transfer: Students who believe they have sufficient experience to demonstrate full competence against particular units may apply for RPL using the forms and processes available from the TME office. Students may apply for credit transfer for any units completed in prior qualifications, including for the elective units.

Funding: This program may be supported by State Government funding, subject to eligibility. New employees may also be eligible for Commonwealth Government Funding. Contact us to discuss your circumstances.

Workplace Training: Programs can be customised to meet individual or workplace requirements. On the job training and assessment activities are built into our programs to benefit employers and enable learners to develop relevant workplace skills.

We actively tailor training for people from diverse backgrounds, including those with disabilities and encourage all to apply.

Information in this flyer may be subject to change. Contact us to ensure you have the most current information about this program.
